**Application Ranking Summary**

**North Platte/White/Yampa - Water Quality/Quantity**

<b>Program:</b>	<b>Ranking Date:</b>	<b>Application Number:</b>
<b>Ranking Tool:</b> North Platte/White/Yampa - Water Quality/Quantity		<b>Applicant:</b>
<b>Final Ranking Score:</b>		<b>Address:</b>
<b>Planner:</b>		<b>Telephone:</b>
<b>Farm Location:</b>		

**National Priorities Addressed**

Issue Questions	Responses
1. Will the treatment you intend to implement using EQIP result in a considerable reduction of non-point source pollution, such as nutrients, sediment, pesticides, excess salinity in impaired watersheds with total maximum daily loads (TMDLs) where available, groundwater contamination or point sources such as contamination from confined animal feeding operations?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the treatment you intend to implement for water conservation or irrigation efficiency using EQIP result in a considerable reduction in water use?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the treatment you intend to implement using EQIP result in a considerable reduction of emissions, such as particulate matter, nitrogen oxides (NOx), volatile organic compounds, and ozone precursors and depleters that contribute to air quality impairment violations of National Ambient Air Quality Standards?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the treatment you intend to implement using EQIP result in a considerable reduction in soil erosion and sedimentation from unacceptable levels on agricultural land?	Yes <input type="radio"/> or No <input type="radio"/>
5. Will the treatment you intend to implement using EQIP result in a considerable increase in the promotion of at-risk species habitat conservation?	Yes <input type="radio"/> or No <input type="radio"/>
6. Will the treatment that you intend to implement using EQIP result in considerable benefits to residue management, nutrient management, air quality management, invasive species management, pollinator habitat, and animal carcass management technology or pest management?	Yes <input type="radio"/> or No <input type="radio"/>
7. Will the treatment that you intend to implement using EQIP result in energy conservation benefits?	Yes <input type="radio"/> or No <input type="radio"/>

**State Issues Addressed**

Issue Questions	Responses
1. Will the project reduce the amount of nutrients/pesticides/salt/selenium or other pollutants entering ground or surface waters?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the planned practice(s) promote water conservation on the contracted acres?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the project address invasive and/or noxious plants on contracted acres?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the project result in an improvement to the existing management system to meet the state AFO/CAFO regulations?	Yes <input type="radio"/> or No <input type="radio"/>
5. Does the project increase the diversity of desirable plants on grazing lands?	Yes <input type="radio"/> or No <input type="radio"/>
6. Does the project improve the health of riparian and/or wetland areas?	Yes <input type="radio"/> or No <input type="radio"/>
7. Is the proposed project located within the State NRCS wildlife priority area, and do the planned practices address the habitat needs of the targeted species designated in the wildlife priority area, or, is the project designed for pollinator habitat?	Yes <input type="radio"/> or No <input type="radio"/>
8. Will the proposed project reduce field soil loss to below "T", or, will the planned practice(s) reduce irrigation induced or streambank erosion?	Yes <input type="radio"/> or No <input type="radio"/>
9. Does the applicant meet one or more of the following conditions: a. Did the applicant successfully complete any past EQIP contract(s) in full compliance; or, b. If the applicant has an existing EQIP contract has it been, and is it now, on schedule and in full compliance; or, c. The applicant has never had an EQIP contract?	Yes <input type="radio"/> or No <input type="radio"/>
10. Has any portion of the offered acres been set aside or inventoried by a Cultural Resources Specialist or an Archeologist?	Yes <input type="radio"/> or No <input type="radio"/>
11. Does the proposed project support organic transition (farming operation to be used while transitioning from	Yes <input type="radio"/> or No <input type="radio"/>

conventional to organic production)?	
--------------------------------------	--

#### Local Issues Addressed

Issue Questions	Responses
1. Will the project improve irrigation efficiency on the contracted acres more than 41%?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the project improve irrigation efficiency on the contracted acres between 17 and 40 percent?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the project improve irrigation efficiency on the contracted acres between 5 and 16 percent?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the project eliminate a significant amount of ditch seepage by lining the ditch with pipe?	Yes <input type="radio"/> or No <input type="radio"/>
5. Will the project eliminate a significant amount of ditch seepage by lining the ditch with concrete?	Yes <input type="radio"/> or No <input type="radio"/>
6. Will the project eliminate a significant amount of ditch seepage by lining the ditch with fabric?	Yes <input type="radio"/> or No <input type="radio"/>
7. Will the project treat active gully erosion caused by irrigation water?	Yes <input type="radio"/> or No <input type="radio"/>
8. Does the project include application of a permanent in-stream diversion structure designed to reduce maintenance that required frequent heavy equipment disturbance of the stream channel?	Yes <input type="radio"/> or No <input type="radio"/>
9. Will the project improve control of diverted water with the installation of a positive shut off gate at the water source (stream or river diversion location)?	Yes <input type="radio"/> or No <input type="radio"/>
10. Will the project improve the management of irrigation water with the installation of a water measuring device?	Yes <input type="radio"/> or No <input type="radio"/>
11. Will the project reduce deep percolation or erosion caused by tail-water?	Yes <input type="radio"/> or No <input type="radio"/>
12. Will the participant(s) implement a Pest Management Plan to address invasive and/or noxious plants on the contracted acres?	Yes <input type="radio"/> or No <input type="radio"/>
13. Does the proposal address energy conservation with the application of a Conservation Power Plant (practice code 716)?	Yes <input type="radio"/> or No <input type="radio"/>
